

STILL NOVO™

APPROVED RECONDITIONED EQUIPMENT

The Still Novo range of upright bikes is ideal for year round cardiovascular training, and is suitable for schools, universities and uniformed services. These exclusive re-manufactured products not only offer great performance, but also excellent value for money.

Our manufacturing process has been developed in line with Technogym quality standards and the equipment is completely renewed and tested to deliver the same performance as a new product.

When buying Still Novo upright bikes, you always enjoy the highest levels of reassurance:

- 12 months Guarantee
- Technical support through the extensive and qualified network

Each piece of Still Novo equipment comes with the user and maintenance manuals, along with a service box (for all the cardio products, including a heart rate monitor and maintenance kit).

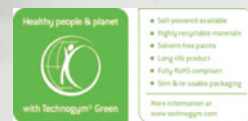

The Technogym STILL NOVO® program offers re-manufactured fitness equipment to a wide range of health, fitness and hospitality operators who are committed to providing their users with the most exciting and high quality range of equipment available today, at even better value-for-money than before, whilst keeping an eye on maximising the budget.

All the cardio and strength equipment are re-manufactured to a rigorous 23 check-point control process making them totally reliable, functional and safe.

Still Novo equipment also provides a “piece-of-mind” service, where we offer a Technogym 12-month guarantee for all the re-manufactured equipment and provides access to all the support services available.

STILL NOVO® equipment is provided with an important set of guarantees:

- All the machine parts are tested and replaced with genuine spare parts ranging from cable to display panels or padding.
- A testing cycle, which includes an electrical safety check (ABAG test), is followed and it ensures that these essential components are in perfect working condition.
- The entire remanufacturing process is done by a team of experts at the TG Village facility in Italy, and it is certified to standard DNV UNI EN ISO 901:2008

Technogym - The WELLNESS Company

Technogym is a leader in the Wellness and Fitness field all over the world. In less than 20 years Technogym has gone from its modest beginnings in a “small-town garage” to most recently being appointed Exclusive Supplier for all athletic preparation centres for the upcoming Olympic Games.

Headquartered in Italy, Technogym has more than 1,600 employees worldwide and in the UK, a team of dedicated and complimentary Home & Hospitality Wellness consultants, CAD designers and personal trainers create the most beautiful gyms in private households, hotels, corporate facilities and fitness centres. With **12 branches** in Europe, U.S., Asia and South America, Technogym **exports 85%** of its production to 100 countries. More than **35,000** Wellness centres are equipped with Technogym and **20,000** private homes

Technogym equipment is the choice of sport champions world-wide. Ferrari Formula One drivers, such as Schumacher, have been training with Technogym products for several years and Technogym is also the preferred supplier at the McLaren Technology Centre and the Porsche Driving Experience Centre in Silverstone. Football teams including A.C. Milan and Chelsea FC all keep fit with Technogym.

As the exclusive supplier to 2012 London Olympics and Paralympics, Technogym will supply and install fitness equipment for athletes in the Athletes' Village and other training venues, becoming the Official Fitness Equipment Supplier. Technogym was also official supplier for the Sydney 2000 and 2004 Athens Olympic and Paralympic Games, the 2006 Torino Winter Olympics and in August 2008, the exclusive and preferred supplier of the Olympic Games in Beijing.

Technogym has a range of equipment to match every fitness need and plays a key role from conception to completion and offers unsurpassed after care service. At Technogym **research and innovation** are the key values behind the development of products and services. Alongside with quality and reliability, high level **design** is distinctive of Technogym equipment, which has won the company several international awards such as the **Red Dot Design Award**, one of the most prestigious international awards for high design quality.

Technogym UK Ltd has been working in partnership with Sportsafe UK, for over 10 years, and has focussed on the efficient provision of both Cardiovascular and Strength equipment throughout the UK to the many types of public services that Sportsafe are contracted with.

This partnership has evolved to provide a recognised, affordable and effective solution, to meet the health & fitness requirements from the Education sector and Emergency “Blue Lamp” services sector.

This solution is based on Technogym's remarkable “STILL NOVO” programme of re-manufactured fitness equipment. This considered and environmentally friendly approach meets with the budget conscious sector whilst providing an up to date collection of products that matches the demands of fitness standards for Emergency services personnel, in addition to the health conscious needs of future generations within our education system today.

Every item of Technogym Still Novo equipment has a quantified process of re-manufacture available for all to recognise. This distinguishes the unique attention to detail and ensures the end user has a first class item of fitness equipment from a brand leading manufacturer who has a very serious, re-cycling, and environmentally friendly approach to providing the best at affordable prices.

Through working closely with Sportsafe, this mutual quality approach benefits the end user, in knowing that two very established companies have a partnership determined to provide the best.
